Aluminium Brazing & HVAC&R Conference 2021

In mid of March 2020, it was necessary taking a decision to postpone the 11th International Aluminium Brazing Congress & Exhibition to May 2021.

We would like to use the opportunity resulting from rescheduling of this event to merge the program with the HVAC&R Conference. A combination of both events will enable to strengthen the contents. It makes the congress even more attractive to a wider audience of the aluminium brazing community.

Since 2000, the 'Aluminium Brazing' brings together many professionals of the aluminium heat exchanger industry independently of their scientific or technological background and the fields of application of their products. The congress in May 2021 will be an excellent opportunity for all participants meeting with leading specialists, authorities and well-known experts during one event.

A comprehensive range of topics will be presented and exhibited to inform about new perspectives and trends. Valuable input is provided reaching from research and development to manufacturing.

We would like to invite you selecting from the followings topics for your presentation/technical paper. It will give you the opportunity to exchange your information with a highly qualified and interested community:

- | | |
|--|------------------------------------|
| 1. Applications | 6. Standards |
| 2. Materials | 7. Corrosion |
| 3. Equipment | 8. Research and Development |
| 4. Heat Exchanger Products for HVAC&R | 9. Testing and Design |
| 5. Process and Quality Control | |

In addition to technical presentations, the congress offers an exhibition area for producers, suppliers and users. This offers numerous opportunities to establish and strengthen business relationships, personal contacts and to expand networks with industry professionals.

The organisers invite interested authors to submit their abstracts by **11 December, 2020**

Please use the DVS Online System:
www.dvs-ev.de/aluminium-brazing2021

Additional Information:

Presentations should be kept to 20 to 25 minutes, with a further 5 minutes at the end for discussion.

The Congress language is English.

Speakers will be informed in writing about the acceptance of their presentations. They will be able to attend the congress free of charge (excluding hotel costs).

All manuscripts must be written in English and submitted electronically.

The manuscript deadline for all contributions will be **12 February, 2021**. The congress contributions will be published in the conference proceedings which will be available at the conference.

Accompanying Exhibition:

In addition to the presentations, there will be an exhibition from **04 – 06 May, 2021**, where companies will have the opportunity to present themselves to an international specialist audience. Exhibition spaces and counter displays (1-3 sqm) can be made available in the lobby area of the hotel. Because of the positive feedback for the last exhibition and very limited space, we recommend you to book early (first come first serve).
