

European Joining Platform to Manufuture

Help shape the future by joining us at the:

4th European Joining Platform General Assembly Meeting

Date: 17th June 2015

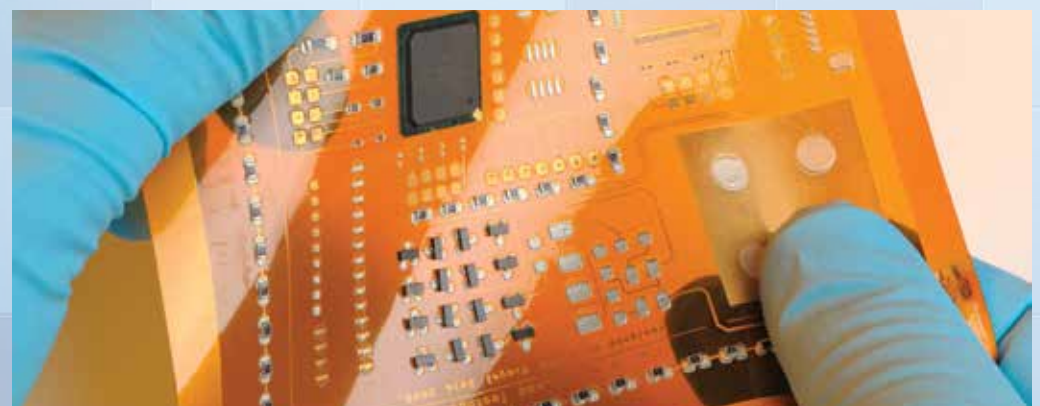

Venue: TWI Ltd, CB21 6AL, Great Abington, Cambridge, UK

The event will focus on debating key areas related to Joining and Welding, including:

- o Key Industrial challenges
- o European collaborative Opportunities
- o Access to Funding
- o A review and update of the European Joining Platform Research Agenda

As well as providing an excellent opportunity to network, the event will also focus on the importance of Joining and welding in the re-industrialisation of Europe.

Mission of the Joining Sub-Platform

Develop a competitive, innovative and sustainable Joining competence that utilises advanced techniques and products, to add value to manufacturing, generating economic growth and skilled jobs for the benefit of EU stakeholders
